(10) The term "person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether incorporated or not.

(b) *Restrictions on use*. (1) No brewer shall use, in the manufacture of malt beverages during any quota period, more than 93 percent of the quantity of malted grain, nor more than 93 percent of the quantity of malt syrup, which he used for such purpose during the corresponding period in the base year.

(2) Notwithstanding the limitations contained in (b) (1), if 93 percent of the total quantity of malted grain used by any brewer in the base year at all of the plants owned by him does not exceed 70,000 bushels, such brewer may use, during any quota period, in lieu of a quota

computed pursuant to (b) (1), a total quantity of malted grain which is not in excess of 100 percent of the total quantity of malted grain used by such brewer during the corresponding three-month period of such base year: *Provided*, That the total quantity of malted grain used by such brewer during the period extending from March 1, 1943, to February 29, 1944, inclusive, or any succeeding period of 12 consecutive calendar months, shall not exceed 70,000 bushels.

(3) Notwithstanding the limitations contained in (b) (1), if the quantity of malted grain used by any brewer in the base year did not exceed 8,000 bushels, such brewer, in lieu of a quota computed pursuant to (b) (1), may use, during each quota period, a total quantity of malted grain which is not in excess of 2,000 bushels.

(4) No brewer, during any quota period, shall use more than 85 percent of his quota of malted grain, nor more than 85 percent of his quota of malt syrup in the production of malt beverages containing an alcoholic content in excess of 3.2 percent by weight.

(5) No brewer, unless authorized by the Director, shall sell or deliver, during any quota period, malt beverages having an alcoholic content of 3.2 percent or less, by weight: *Provided*, That any brewer, without authorization from the Director, may sell or deliver, during any quota period, any malt beverages containing 3.2 percent or less of alcohol, by weight, in excess of a quantity of such beverages equal to 15 percent of his total production of all malt beverages in the same quota period.

(6) The quotas computed pursuant hereto by a brewer owning or operating more than one plant shall be deemed to be assigned to each plant separately.

(7) Any brewer may substitute malt syrup for malted grain, in which event he shall deduct 10 pounds from the amount of his malted grain quota for every 8 pounds of malt syrup so substituted. Any brewer may substitute malted grain for malt syrup, in which event he shall deduct 8 pounds from the amount of his malt syrup quota for every 10 pounds of malted grain so substituted.

(c) *Restrictions on inventory*. (1) No brewer shall purchase or accept delivery of a quantity of malted grain which will cause the total quantity of malted grain owned by such brewer, or in his possession, to exceed 4,000 bushels or 10 percent of the quantity of malted grain used by such brewer in the production of malt beverages in the calendar year 1942, whichever amount is the greater.

(2) No brewer shall purchase or accept delivery of a quantity of malt syrup which will cause the total quantity of malt syrup owned by such brewer, or in his possession, to exceed 10 percent of

the quantity of malt syrup used by such brewer in the production of malt beverages in the calendar year 1942.

(3) Nothing in this order shall be construed to require delivery of less than a minimum carload of malted grain and any brewer owning or having under his control less than his permitted inventory of malted grain may purchase and accept delivery of a minimum carload of such grain.

(4) The restrictions of this paragraph shall not apply to any brewer who is engaged in the business of producing malted grain.

(5) Any brewer having an inventory which is in excess of that permitted by this order is not required by this order to dispose of such excess and may retain it and use it at any time, as permitted in (b) hereof.

(d) *Carrying over of quotas*. Use and inventory quotas may be carried over from one quota period to another quota period only with the written permission of the Director. Application for such permission shall be made by letter setting forth the pertinent facts, the relief requested, and the reasons why such relief should be granted. Any brewer who has, at the end of any quota period, an unused quota balance insufficient to produce a full brew may carry that balance over into the next succeeding quota period, and add such amount to his quota for such succeeding quota period, without specific permission, notwithstanding the foregoing restrictions.

(e) *Reports required*. Each manufacturer of malted grain shall correctly complete Form FDO 66-1 for each month and submit such completed form to the Director of Food Distribution, War Food Administration, Washington, D. C., Ref. FD 66, on or before the 10th day of the following month. (This reporting requirement has been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.)

(f) *Audits and inspections*. The Director shall be entitled to make such audit or inspection of the books, records and other writings, premises, or stocks of malted grains and malt syrups, of any person, and to make such investigations as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order.

(g) *Records and reports*. The Director shall be entitled to obtain such information from, and require such reports and the keeping of such records by, any person, as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order, subject to the approval of the Bureau of the Budget, pursuant to the Federal Reports Act of 1942.

(h) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional and unreasonable hardship on him may apply in writing for relief to the Director, setting forth in such petition all pertinent facts and the nature of the relief sought. The Director may thereupon take such action as he deems appropriate, which action shall be final.

(i) *Violations.* The War Food Administrator may, by suspension order, prohibit any person who violates any provision of this order from receiving, making any deliveries of, or using malted grains and malt syrups, or any other material subject to priority or allocation control by the War Food Administrator, and may recommend that any such person be prohibited from receiving, making any deliveries of, or using materials subject to the priority or allocation control of other governmental agencies. In addition, any person who willfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Further, civil action may be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(j) *Delegation of authority.* The administration of this order and the powers vested in the War Food Administrator, insofar as such powers relate to the administration of this order, are hereby delegated to the Director, and may be redelegated by him to any employee of the United States Department of Agriculture.

(k) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless instructions to the contrary are issued by the Director, be addressed to the War Food Administrator, United States Department of Agriculture, Washington, D. C., Ref. FD 66.

(l) *Conservation Order M-288, as amended, superseded.* This order supersedes in all respects Conservation Order M-288, as amended, issued by the War Production Board, except that as to violations of said order, as amended, or rights accrued, liabilities incurred, or appeals taken, under said order, said Conservation Order M-288, as amended, shall be deemed in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding, with respect to any such violation, right, or liability. Any appeal pending under said Conservation Order M-288, as amended, shall be considered under paragraph (h).

(m) *Effective date.* This order shall become effective 12:01 a. m., e. w. t., July 28, 1943.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue

Subchapter A—Income and Excess Profits Taxes [T. D. 5287]

PART 19—INCOME TAX UNDER INTERNAL REVENUE CODE

INCOME OF ESTATES AND TRUSTS DISTRIBUTED TO LEGATEES AND BENEFICIARIES

Regulations 103 [Part 19, Title 26, Code of Federal Regulations, 1940 Sup.], re-

¹ This chapter formerly designated as Food Distribution Administration.

lating to the income tax under the Internal Revenue Code, are amended as follows:

PARAGRAPH 1. Section 19.162-1, as amended by Treasury Decision 5215, approved January 19, 1943, is amended as follows:

(A) There is stricken out that portion of the fourth paragraph which reads:

There is taxable to the estate or to the trust, unless it be taxable to the grantor of the trust (see §§ 19.166-1 and 19.167-1)

and there is inserted in lieu thereof the following:

There is included in the income of the estate or the trust, unless it is included in the income of the grantor of the trust (see §§ 19.166-1 and 19.167-1)

(B) The last sentence of the fourth paragraph is changed to read as follows:

In all such cases the tax with respect to such income included in the income of the estate or trust for its taxable year is payable by the fiduciary, except where the income is taxable to the grantor of the trust or where, as provided in the next paragraph, it is deductible by the estate or trust for such taxable year (and is includible in the income of the legatee or beneficiary).

(C) The eighth paragraph is amended by changing the ninth sentence thereof to read as follows:

A statutory allowance paid a widow is not deductible from gross income, except to the extent that under the principles of section 19.162-2 such allowance is taxable to the widow.

(D) The ninth paragraph is amended by changing the second sentence thereof to read as follows:

If the tax has been properly paid on the net income of an estate or trust for any taxable year, the net income on which the tax is so paid is not, generally, in the hands of the distributee thereof (the legatee, heir, or beneficiary) taxable as income to him, but such income, to the extent it becomes payable in a subsequent taxable year of the estate or trust to the distributee after the first 65 days of such subsequent taxable year, may be required to be included in the income of the distributee under section 162 (d) (2). See § 19.162-2 (b).

PAR. 2. Section 19.162-2, as added by Treasury Decision 5215, is amended as follows:

(A) The first sentence of paragraph (a) is amended by changing the parenthetical clause therein to read as follows: "(for example, by the terms of the trust instrument or will)".

(B) The third paragraph of paragraph (a) is changed by amending the third sentence thereof to read as follows:

"Net income", as thus used, means the statutory net income of the trust under the Code before the application of section 162 (b) and (c) (but, as stated in the preceding sentence, such amount is to be reduced by the deductions allowed under paragraphs (b) and (c) of section 162 in the case of amounts to which section 162 (d) (1) does not apply).

(C) The heading and first paragraph of paragraph (b) (including examples (1) and (2) thereof) are changed to read as follows:

(b) *Allocation among income beneficiaries and legatees.* Section 162 (d) (2), as added by the Revenue Act of 1942, applies in cases where income of the estate or trust for any period becomes payable on a date more than 65 days after the beginning of its taxable year. It applies in every case where income of the estate or trust is paid, credited, or to be distributed to a legatee, heir, or beneficiary, other than a legatee, heir, or beneficiary to whom paragraph (a) of this section applies or a legatee, heir, or beneficiary of a lump sum gift, bequest, devise, or inheritance. This subsection, and not paragraph (a), applies to income paid, credited, or to be distributed to a legatee who, in addition to any part of the principal of an estate, is entitled to receive any income during the administration of the estate or upon its termination, whether payment of such income is made in accordance with directions in the will, or for support as allowed under State law, or by the administrator to the residuary legatee in the ordinary course of administration. The rule stated in the preceding sentence, however, has no application in cases where income may be paid, credited or is to be distributed under an obligation to pay an amount periodically at all events, whether or not income is available, as in the ordinary case of an annuity. Section 162 (d) (2) also has no application in determining the amount to be included in the income of the estate or trust under section 161 but applies only in determining the amount allowed as deductions under section 162 (b) and (c).

Section 162 (d) (2) applies whether amounts are paid, credited, or to be distributed out of the income of the estate or trust for its current taxable year or out of the income for any period. It includes a rule for allocating income of the estate or trust to the legatees or beneficiaries in cases in which the income of a prior period is paid, credited, or to be distributed to the legatee or beneficiary during the taxable year of the estate or trust. In the absence of proof that any particular period of time is the source of an amount of income which becomes payable within the taxable year, the pe-

riod from which such income is derived will be presumed to be a period ended with the date the income becomes payable. In such a case the year ended with the date the income becomes payable shall be considered the last 12 months of such period (whether or not other distributions under this subsection have been made during such last 12 months) and the income which becomes payable shall be considered as derived from the most recently accumulated income for such period.

As used in section 162, the term "income which becomes payable" means income to which the legatee, heir, or beneficiary has a present right, whether or not such income is actually paid. Such right may be derived from the directions in the trust instrument or will to make distributions of income at a certain date, or from the exercise of the fiduciary's discretion to distribute income, or from a recognized present right under the local law to obtain income or compel a distribution of income. Income is not considered to become payable within a taxable year where during the entire taxable year there is only a future right to such income. For example, under valid terms of a trust instrument, income received by a trust during its taxable year is to be accumulated until the 21st birthday of the beneficiary (or his prior death), at which time the accumulated income is to be distributed to the beneficiary (or his estate, as the case may be). In such case, the income of the trust received in any taxable year prior to the date of distribution occurs (the beneficiary's 21st birthday or his prior death) is not income which becomes payable within such prior taxable year but is income which becomes payable in the taxable year of the trust in which the date of distribution occurs. In any case, income becomes payable at a date not later than the date it is actually paid for the use of the distributee.

The application of section 162 (d) (2), in general, may be illustrated by the following examples:

Example (1). An existing trust makes its returns on the cash receipts and disbursements basis and on the basis of a calendar year accounting period. Under the terms of the trust and the local law (which allows accumulations) the income of the trust for the period of 12 months ended June 30 of each year is accumulated and the beneficiary has no right to such income until the last day of such period (June 30). For the purpose of the tax for 1941, the entire gross income received by the trust in 1941 is required to be included in its income for 1941, and, under the law applicable to 1941, the 1941 trust income distributable on June 30, 1941, is allowed as a deduction, but the 1941 trust income not distributable until June 30, 1942, is not allowable as a deduction for 1941. For the purpose of the tax for 1942, the entire gross income received by the trust

in 1942 will be included in its income for 1942. Under section 162 (d) (2), the trust income for the 12 months ending June 30, 1942, which, under the terms of the trust instrument, is available for distribution on such date, will be considered for the purposes of section 162 (b) as income for the taxable year 1942 which becomes payable on June 30, 1942, and, accordingly, will be deducted by the trust for 1942. Assuming the beneficiary makes his income tax returns on the calendar year basis, he will include this amount deducted by the trust in 1942 in his income for 1942. The same process will be repeated each year thereafter as long as the accounting periods and the distribution date remain the same. Thus if, in such a case, the entire net income of the trust (determined before the application of section 162 (b)) is available for distribution and the trust receives each month \$100 of such income available for distribution, for 1941 the trust will have \$600 of taxable net income (before credits), that is, the excess of the \$1,200 income over the \$600 deduction for the June 30, 1941, distribution. For the taxable year ended December 31, 1942, the trust will include \$1,200 in its income, which is its actual income for 1942 determined under section 161 without inclusion of that part of the 1941 income distributed on June 30, 1942, and without exclusion of that part of the 1942 income distributable on June 30, 1943. Assuming that the income distributable on June 30, 1942, is not to be reduced under the trust instrument and State law by the amount of tax paid by the trust with respect to the 1941 income included in such distribution, the trust will be allowed a deduction in computing its tax for 1942 of the whole \$1,200 which becomes payable on June 30, 1942, and which is included in the beneficiary's income for 1942. Thus, for 1942 the trust will pay no income tax and the beneficiary will include \$1,200 in computing his net income.

Example (2). An estate which came into being on January 1, 1941, accumulates the income received (as is allowed under the local law) until June 30, 1942, at which time the executor distributes \$6,000 of income to the residuary legatee. The balance of the accumulated income becomes payable under the local law on December 31, 1942, the date the administration of the estate is terminated, and a final distribution of \$18,000 of income is then made to the residuary legatee. It is established that the estate, which was on a cash basis, received net income, which it accumulated during the administration of the estate, at the rate of \$1,000 a month, but in making the distributions to the residuary legatee the executor did not attempt to identify such distributions with the income received during any particular period during the administration of the estate. Upon such facts, for the taxable year 1942, the distribution on June 30, 1942, of \$6,000 will be presumed to be a distribution out of the most recently accumulated income of the estate, that is, for the first six months of 1942, and the final distribution of \$12,000 on December 31, 1942, will be considered a distribution out of the income for the entire period of administration, of which the last 12 months is the calendar year 1942 and the most recently accumulated income is the \$6,000 for the last six months of 1942. Accordingly, for 1942 the estate will take a deduction of \$12,000 and the legatee will include the same amount (out of the total of \$24,000 received) in his income, by reason of the

distributions on June 30 and December 31, 1942.

Example (3). Under the terms of the will of X, who died in 1940, after payment of expenses and specific bequests, the residue of his estate (which will include the undistributed income for the period of administration) is to be divided into two equal shares and one of such shares is to be paid over to his widow and the other such share is to be paid over to a testamentary trust for the benefit of his children. During the period of administration, the estate makes its returns on the calendar year basis. The administration of the estate is terminated on June 30, 1942, at which date equal shares of the principal and the income (which under the local law first became payable at such date) are transferred in accordance with the terms of the will to the widow and to a trust established as of such date. With the application of section 162 (d) (2) the widow and the trust will each include in their income tax returns filed for their first taxable years ending on or after June 30, 1942, one-half of the income of the estate for the 12 months preceding June 30, 1942. This distribution will include the income of the estate for the last six months of 1941 upon which the estate may already have paid tax for 1941, but such income may, if under the local law the Federal income tax is a charge against such income, be reduced by the amount of Federal income tax attributable to such income and paid for 1941 by the estate. The return of the estate for 1942 will show a deduction of the amount of the income for the 12 months preceding June 30, 1942, which is includible in the income of the widow and the testamentary trust.

Memorandum opinion and order of the director in the matter of the petition of District Board No. 8 for the establishment of price classifications and minimum

prices for the coals of certain mines in District No. 8, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

On June 7, 1943, after notice and hearing, W. A. Cuff, a duly designated Examiner of the Bituminous Coal Division, filed a report in which he found that the temporary price classifications and minimum prices heretofore granted by order,

dated January 24, 1942, 7 F.R. 1001, and extended by order, dated March 25, 1942, 7 F.R. 2405, for the coals produced by the Red Jacket No. 9 Mine (Mine Index No. 5246) of the Red Jacket Coal Corporation, located in Wyoming County in Subdistrict No. 5 (Logan), in District 8, should be terminated and that price classifications and minimum prices should be established for the coals produced by this mine, as therein provided. The Examiner recommended that an order be entered amending the Schedules of Effective Minimum Prices for District No. 8 For All Shipments Except Truck and For Truck Shipments in conformity therewith.

An opportunity to file exceptions to the Report of the Examiner was afforded all interested parties. As of the date hereof no such exceptions have been filed.

I have considered the entire record in this proceeding, including the Report of the Examiner, and I find that the Examiner's proposed findings and conclusions are adequate and accurate and that his recommendation should be followed. Accordingly, I have concluded to approve and adopt the proposed findings of fact and conclusions of law of the Examiner as the findings of fact and conclusions of law of the Director.

Upon the basis of the entire record in this proceeding, and pursuant to section 4 II (d) and other provisions of the Bituminous Coal Act of 1937,

It is hereby ordered, That the proposed findings of fact and the proposed conclusions of law of the Examiner are approved and adopted as the findings of fact and the conclusions of law of the Director;

It is further ordered, That the temporary price classifications and minimum prices heretofore granted by order, dated

District 8, in accordance with supplements R and T, which supplements are hereinafter set forth and hereby made a part hereof.

Dated: July 15, 1943.

PART 962—IRON AND STEEL

[Supplementary Order M-21-g as Amended July 27, 1943]

HEAT-RESISTANT CHROMIUM OR CHROMIUM-NICKEL ALLOY IRON AND ALLOY STEEL

§ 962.8 *Supplementary Order M-21-g—(a) Restrictions on certain uses of chromium and chromium-nickel iron and steel alloys for heat resistant purposes.* Except pursuant to specific authorization or direction of the War Production Board, from and after July 2, 1942:

(1) No person shall melt, process, fabricate or deliver any heat resistant chromium or chromium-nickel alloy iron or alloy steel for the uses set forth in Schedule A with a higher chromium and/or nickel content than specifically authorized in Schedule A;

(2) No person, in placing an order for heat resistant chromium or chromium-nickel alloy iron or alloy steel for the uses set forth in Schedule A, shall specify temperature requirements beyond those necessary to maintain operations then engaged in; and

(3) No person, in redesigning or rebuilding any equipment, or parts therefor, for the uses set forth in Schedule A, shall increase the weight of the heat resistant chromium or chromium-nickel alloy iron or alloy steel in any unit to an amount greater than 10% of the weight of such iron or steel contained in the original design of such unit.

(b) *Exception for Army, Navy, and Maritime Commission orders.* The restrictions imposed by paragraph (a) shall not apply in the case of materials or equipment to be purchased by or for the account of the Army or Navy of the United States, or the United States Maritime Commission, or to be physically incorporated into materials or equipment to be so purchased, to the extent that the use of heat-resistant chromium or chromium-nickel alloy iron or alloy steel is required by the specifications (including performance specifications) of the Army or Navy of the United States, or the United States Maritime Commission applicable to the contract, subcontract, or purchase order.

(c) *Other exceptions.* The restrictions imposed by paragraph (a) shall not apply to:

(1) Materials fully fabricated on July 2, 1942:

(2) Materials to be melted, processed, fabricated or delivered pursuant to a contract made prior to July 2, 1942 where it would not be practicable to change

specifications to conform to the provisions of this order: *Provided*, That delivery of such materials under such contract shall be completed on or before August 31, 1942; and

(3) Any industrial instrument, instrument connection, instrument end, control valve, safety valve, or regulator, as defined by Conservation Order L-134, as amended from time to time, to the extent that the use of heat resistant chromium or chromium-nickel alloy iron or alloy steel is permitted by such order.

(d) *General restrictions.* (1) No person shall melt, process, fabricate or deliver any heat resistant chromium or chromium-nickel alloy iron or alloy steel to or for the account of any person for the uses set forth in Schedule A if he knows or has reason to believe that such material will be sold or used in violation of the terms of this order or any other or further order or direction of the War Production Board.

(2) A person melting, processing, fabricating or delivering any heat resistant chromium or chromium-nickel alloy iron or alloy steel for the uses set forth in Schedule A, may rely on the statement of his customer that such material will not be sold or used except in compliance with this order and any other or further order or direction, which statement shall be endorsed in the following form, signed by an official duly authorized for such purpose, on every purchase order for such material:

The undersigned certifies to the seller and to the War Production Board that the material ordered herein will not be sold or used in violation of the terms of Supplementary Order M-21-g or any other or further order or direction of the War Production Board.

Such statement shall be a representation to the War Production Board and shall be preserved by the seller for a period of at least two years.

(e) *Applicability of other orders.* Insofar as any other order of the War Production Board may have the effect of limiting or curtailing to a greater extent than herein provided, the use of any material, the limitations of such other order shall be observed.

(f) *Appeal.* Any person affected by this order who considers that compliance herewith would work an exceptional and unreasonable hardship upon him may apply to the War Production Board, Steel Division, Washington 25, D. C., Ref.: M-21-g, setting forth the pertinent facts, and the reasons he considers he is entitled to relief. The War Production Board may thereupon take such action as it deems appropriate.

(g) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may

be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 27th day of July 1943.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-373]

BENJAMIN J. LANDIS

Benjamin J. Landis, Philadelphia, Pennsylvania, is engaged in the sale of plumbing and heating supplies.

Subsequent to May 20, 1942, the respondent sold and delivered approximately 95,000 feet of copper tubing on orders which did not bear a preference rating of A-1-k or higher. The respondent admitted delivering 6,000 feet of copper tubing on orders bearing no preference ratings whatever. These deliveries constituted a violation of paragraph (d) of General Preference Order M-9-a, as amended May 7, 1942. Subsequent to April 1, 1942, he fabricated copper and copper base alloy products into hot water heaters, pipe tube, tubing and fittings therefor. This constituted a violation of General Limitation Order L-42, Schedule 7, as amended May 6, 1942.

As a result of having been engaged in the plumbing and heating supply business for over twenty-five years, and of the wide publicity regarding the scarcity of copper and the restrictions placed on its sale and manufacture, Benjamin J. Landis must be considered as having known of the restrictions affecting his business. His actions have hampered and impeded the war effort of the United States by diverting scarce materials to uses not authorized by the War Production Board. In view of the foregoing, *It is hereby ordered, That:*

§ 1010.373 *Suspension Order No. S-373.* (a) Deliveries of material to Benjamin J. Landis, his successors or assigns, shall not be accorded priority over deliveries under any other contract or order, and no preference ratings shall be assigned, applied or extended to such deliveries by means of preference rating certificates, preference rating orders, general preference orders or any other orders or regulations of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(b) No allocation shall be made to Benjamin J. Landis, his successors or assigns, of any material, the supply or distribution of which is governed by any order of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(c) Nothing contained in this order shall be deemed to relieve Benjamin J. Landis, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on July 27, 1943 and expire on September 27, 1943, after which latter date it shall have no further force or effect.

Issued this 20th day of July 1943.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-376]

T. G. McKIMMIE

T. G. McKimmie, of Ben Avon, Pennsylvania, is engaged in business as a building contractor. On or about July 7, 1942, he began construction, as defined in Conservation Order L-41, on a residence located at 705 Evergreen Road, Millvale, Pennsylvania, at an estimated cost in excess of \$500, in violation of said order. On or about October 10, 1942, the said McKimmie began construction on a dwelling located at 123 Grant Avenue, Millvale, Pennsylvania, at an estimated cost in excess of \$200, in violation of Conservation Order L-41, as amended September 2, 1942. At the times aforesaid T. G. McKimmie was, or should have been, familiar with the provisions of Conservation Order L-41, and its amendment, and these violations were wilful.

These violations of Conservation Order L-41 have hampered and impeded the war effort of the United States by diverting scarce materials to uses prohibited by the War Production Board. In view of the foregoing facts, *It is hereby ordered, That:*

§ 1010.376 *Suspension Order No. S-376.* (a) Deliveries of material or equipment to T. G. McKimmie, his successors or assigns, shall not be accorded priority over deliveries under any other contract or order, and no preference rating shall be assigned, applied or extended to such delivery by any preference rating certificate, preference rating order, general preference order, or any other orders or regulations of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(b) No allocation shall be made to T. G. McKimmie, his successors or assigns, of any material, the supply or distribution of which is governed by any order of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(c) Nothing contained in this order shall be deemed to relieve T. G. McKimmie, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on July 27, 1943, and shall expire on September 27, 1943.

Issued this 20th day of July 1943.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-381]

THE PHOTO PROCESS ENGRAVING CO.

The Photo Process Engraving Company is a Georgia corporation, engaged in the engraving of copper and zinc

plates at 119½ Luckie Street NW., Atlanta, Georgia. Plates made by the respondent are used for the reproduction of news, periodicals and school annuals. During the first quarter of 1942, respondent consumed 6,261 pounds of copper in excess of its quota, and in the last quarter of 1942, 538 pounds of copper in excess of its quota, in violation of Conservation Order M-9-c. Respondent, prior to the above violations, had in its possession a copy of Conservation Order M-9-c, an order of the War Production Board curtailing the use of copper on certain items and thereby was put on notice that the use of copper was subject to the orders of the War Production Board. Hence, respondent's actions must be deemed to constitute wilful violations of Conservation Order M-9-c. These wilful violations of Conservation Order M-9-c have diverted scarce materials to uses not authorized by the War Production Board and have hampered and impeded the war effort of the United States. In view of the foregoing, *It is hereby ordered, That:*

§ 1010.381 *Suspension Order No. S-381.* (a) Respondent's quota of copper for each of the calendar quarters beginning July 1, 1943, shall be reduced by 3,399 pounds, which amount represents one-half of its total over-consumption of copper during the first and fourth quarters of 1942, unless respondent is hereafter specifically authorized in writing by the War Production Board to consume additional copper.

(b) Nothing contained in this order shall be deemed to relieve Photo Process Engraving Company, its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on issuance, and shall expire December 31, 1943.

Issued this 27th day of July 1943.

PART 1038—GRAPHITE

[Supplementary Order M-61-a]

GRAPHITE CRUCIBLE SIMPLIFICATION

The fulfillment of the requirements for the defense of the United States has created a shortage in the supply of graphite for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 1038.2 *Supplementary Order M-61-a—(a) Purpose of order.* This order prohibits the manufacture of certain sizes of standard crucibles and prohibits the manufacture of all other crucibles of size and shape other than those now being made.

(b) *Definition.* For the purposes of this order, a "standard graphite crucible" means any crucible made from any type or grade of graphite, and which is known in the trade as being of standard shape and of standard size. All other graphite crucibles are referred to as special crucibles.

(c) *Limitation on manufacture.* (1) No person shall mold or shape any standard graphite crucibles of the sizes listed in Schedule A annexed hereto. Nothing contained in this order, however, shall prevent a person from delivering, or accepting delivery of, any graphite crucibles which had been molded or shaped prior to the 27th day of July, 1943.

(2) No person shall mold or shape any special crucibles of size or shape other than those which had been molded or shaped by such person prior to the 27th day of July, 1943.

(d) *Appeals.* Appeals from provisions of this order shall be made by filing a letter in triplicate stating fully the grounds for the appeal.

(e) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any Department or Agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(f) *Communications.* All communications concerning this order shall, unless otherwise directed, be addressed to War Production Board, Mica-Graphite Division, Washington 25, D. C., Ref.: M-61-a.

Issued this 27th day of July 1943.

PART 1044—CADMIUM

[Conservation Order M-65-a as Amended July 27, 1943]

Whereas, national defense requirements have created a shortage of cadmium for the combined needs of defense, private account, and export; and the supply now is and will be insufficient for defense and essential civilian requirements unless its use in the manufacture of many products where such use is not absolutely necessary for the defense or

essential civilian requirements is curtailed or prohibited as hereinafter provided: Now, therefore, it is hereby ordered, That:

§ 1044.2 Conservation Order M-65-a—(a) Prohibition on use of cadmium in articles appearing on List A. No person shall use any cadmium in the production of any item on List A.

(b) Limits on all other uses of cadmium. No person shall use any cadmium in the production of any articles not covered by paragraph (c) of this order.

(c) General exception. Where and to the extent the use of any less scarce material is impracticable, the prohibitions, limitations and restrictions contained in paragraphs (a) and (b) shall not apply to the use of cadmium in the manufacture of any item, or for any of the uses, set forth on List B attached, or which is being produced:

(1) For delivery under a specific contract or subcontract for the Army or Navy of the United States, the United States Maritime Commission, The Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Commission for Aeronautics, the Office of Scientific Research and Development or for any foreign country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States," (Lend-Lease Act) if in any such case the use of cadmium to the extent employed is required by the specifications of the prime contract, or

(2) To comply with underwriters regulations or safety regulations issued under Governmental authority, provided the pertinent provisions of such regulations were, in either case, in effect both on December 1, 1941, and on the date of such use, and specifically and exclusively require the use of cadmium to the extent employed; or

(3) [Revoked July 27, 1943.]

(d) Prohibitions against sales or deliveries. No person shall hereafter sell or deliver cadmium to any person if he knows, or has reason to believe, such material is to be used in violation of the terms of this order.

(e) Limitation of inventories. No manufacturer shall receive delivery of cadmium (including scrap) or products thereof, in the form of raw materials, semi-processed materials, finished parts or sub-assemblies, nor shall he put into process any raw material, in quantities which in either case shall result in an inventory of such raw, semi-processed or finished material in excess of a minimum practicable working inventory, taking into consideration the limitations placed upon the production of cadmium products by this order.

(f) Miscellaneous provisions—(1) Applicability of Priorities Regulation No. 1. This order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1, (Part 944) as amended from time to time, except to the extent that any provisions hereof may be inconsistent therewith, in which

case the provisions of this order shall govern.

(2) Appeal. Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of cadmium conserved, or that compliance with this order would disrupt or impair a program of conversion from nondefense work to defense work, may appeal to the War Production Board, Washington, D. C., setting forth the pertinent facts and the reason he considers he is entitled to relief. The War Production Board may thereupon take such action as it deems appropriate.

(3) Addressing of communications. All applications, statements, or other communications filed pursuant to this order or concerning the subject matter hereof should be addressed to the War Production Board, Ref.: M-65-a, Washington 25, D. C.

(4) Applicability of order. The prohibitions and restrictions contained in this order shall apply to the use of material in all articles hereafter manufactured irrespective of whether such articles are manufactured pursuant to a contract made prior or subsequent to January 17, 1942, or pursuant to a contract supported by a preference rating. Insofar as any other order of the War Production Board may have the effect of limiting or curtailing to a greater extent than herein provided, the use of cadmium in the production of any article, the limitations of such other order shall be observed.

(5) Violations or false statements. Any person who violates this order, or who willfully falsifies any records which he is required to keep by the terms of this order, or by the War Production Board, or who otherwise willfully furnishes false information to the War Production Board may be deprived of priorities assistance or may be prohibited by the War Production Board from obtaining any further deliveries of materials subject to allocation. The War Production Board may also take any other action deemed appropriate, including the making of a recommendation for prosecution under section 35A of the Criminal Code (18 U.S.C. 80).

(6) Definitions. For the purposes of this order:

(i) "Cadmium" means the following in any forms suitable for industrial use:

(a) Metallic cadmium in such forms as anodes, balls, cakes, discs, foil, ingots, moss, pencils, pigs, plates, powder, rods, sheets, shot, slabs, sticks, strips, wire or other refined shapes; or

(vi) "Put into process" means the first change by a manufacturer in the form of material from that form in which it is received by him.

(7) *Effective date.* This order shall take effect January 17, 1942, and shall continue in effect until revoked by the War Production Board.

Issued this 27th day of July 1943.

Recording Secretary.

PART 1075—CONSTRUCTION

[Conservation Order L-41, as Amended July 27, 1943]

§ 1075.1 *Conservation Order L-41—*
(a) *Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Construction" means the erection, construction, reconstruction, restoration, or remodeling of any structure or project, or additions thereto or extensions or alterations thereof, but not including:

(i) "Maintenance and repair" as defined in paragraph (a) (12);

(ii) The excavation or other movement of earth where no material except earth or other unprocessed material is to be incorporated.

(3) "Residential construction" means any construction where the principal designed function of the structure or project is or will be to provide living space or accommodations.

(4) "Multiple residential construction" means any residential construction where the principal designed function of the structure or project is or will be to provide living space or accommodations for six or more families, or which is divided or to be divided into six or more suites.

(5) "Agricultural construction" means any construction, (other than residential construction), where the principal designed function of the structure or project is or will be the production of agricultural products including, but not limited to, those produced by farmers, planters, ranchmen, dairymen, poultrymen, or nut or fruit growers.

(6) "Industrial construction" means any construction where the principal designed function of the structure or project is or will be the manufacture, processing or assembling of goods or materials.

(7) "Other restricted construction" means any construction, other than residential, multiple residential, agricultural, or industrial construction, including, but not limited to, commercial, highway, roadway, sub-surface, railroad, and utilities construction, whether publicly or privately financed.

(8) "Project" means all separate structures or units of construction situated in close proximity to each other and integrated to serve a single general use; it does not mean a particular construction operation or job. In no case shall a single structure or unit of construction be subdivided into more than one project for the purpose of this order.

(9) "Begin construction" means to initiate construction, or to resume construction which has not been carried on as one continuous construction job, by physically incorporating or installing into a structure or project on the site, material which is to be an integral part of the structure or project.

(10) "Cost" shall be the sum of the total cost or value, whichever is higher,

of the following (except as qualified in (a) (11) below):

(i) Material which is to be an integral part of the structure or project, including articles, chattels, or fixtures which are to be physically incorporated in and used as a part of the structure or project, or are to be so substantially affixed thereto that they cannot be detached without materially injuring them or the structure or project;

(ii) Labor engaged in the construction;

(iii) Architects', engineers' and contractors' services.

(11) "Cost" does not include the following:

(i) The value of used material, articles, chattels or fixtures which have been severed from the same or another structure or project and are to be used without change in ownership, nor the cost or value of labor engaged in incorporating the same;

(ii) The cost or value of production machinery or equipment to be used directly in the manufacturing, processing or assembling of goods or materials;

(iii) The value of labor, not entailing financial outlay, of an owner or tenant and members of the owner's or tenant's immediate family residing with him, on a structure or project owned or leased by him.

(12) "Maintenance and repair" means such work as is necessary to keep a structure or project in sound working condition, or to rehabilitate a structure or project or any portion thereof when the same has been rendered unsafe or unfit for service by wear and tear or other similar causes. The term does not include any building operation or job where a structural alteration or change in design is to be made. However, different materials may be used and different types of articles, chattels or fixtures (but of the same general nature) may be incorporated, provided that there are no such structural alterations or changes in design. No building operation or job may be part construction and part maintenance and repair, as the terms are used herein, but if any construction is to be done, the entire building operation or job is construction. Maintenance and repair does not include the reconstruction or restoration of a structure or project or portion thereof destroyed by fire, flood, tornado, earthquake, act of God or the public enemy.

(b) *Prohibited construction.* (1) No person shall begin construction, carry on any construction begun in violation of any order in the L-41 series, cause such construction to be begun or carried on or participate in such construction, or order, purchase, accept delivery of, withdraw from inventory or in any other manner secure or use material for such purposes.

(2) The terms and restrictions of (b) (1) shall not apply where the construction is of:

(i) A structure or project to be the property of the Army or Navy of the United States, the United States Maritime Commission, Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority,

or the Office of Scientific Research and Development;

(ii) A structure or project which is to be used directly in the discovery, development or depletion of mineral deposits;

PART 1226—GENERAL INDUSTRIAL EQUIPMENT¹

[General Limitation Order L-298 as Amended
July 27, 1943]

RESISTANCE WELDING EQUIPMENT

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain materials and facilities used in the manufacture of resistance welding equipment for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1226.107¹ *General Limitation Order L-298—(a) Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Resistance welding" means that process for the localized consolidation or

joining of metals under pressure and heat, wherein the heat is generated within the metallic parts to be consolidated or joined by the resistance of those parts to the passage of an electric current.

(3) "Resistance welding equipment" means equipment manufactured for use in the operation of joining metals by the resistance welding process and includes resistance welding machines, resistance welding controls, and resistance welding electrodes.

(4) "Manufacturer" means any person engaged in the business of producing, fabricating or assembling resistance welding equipment, and shall include sales and distribution outlets owned by any such person.

(5) "Dealer" means any person engaged in the business of purchasing resistance welding equipment for resale.

(6) "Order" means any commitment or other arrangement for the delivery of resistance welding equipment whether by purchase, lease, rental or otherwise.

(7) "Army, Navy, Maritime Commission or War Shipping Administration" does not include any privately operated plant or shipyard financed by, or controlled by, any of those agencies or operated on a cost-plus-fixed-fee basis.

(8) "Used resistance welding equipment" means resistance welding equipment that has been delivered to an ultimate consumer.

(b) *Operations reports.* Each manufacturer shall, on or before the 15th day of each month, commencing with the month of August, 1943, file with the War Production Board an operations report on Form WPB-2830, showing orders for new and rebuilt resistance welding equipment and repair parts unfilled, received, shipped and cancelled during the preceding month, in accordance with instructions accompanying the form: *Provided*, That this paragraph (b) shall not apply to orders for electrical circuit breakers or indicating or recording apparatus used with resistance welding equipment, or repair parts for such circuit breakers or indicating or recording apparatus.

(c) *Authorization of purchase orders required.* (1) On and after July 27, 1943, no manufacturer or dealer shall accept an order for, or deliver any new resistance welding equipment unless the order or delivery is specifically authorized by the War Production Board on Form WPB-2752. Application for an authorization, and for a preference rating if none has been previously assigned, is to be made by the purchaser by filing Form WPB-2752, in duplicate, with the War Production Board as explained in the instructions which accompany the form. The delivery restrictions of this paragraph (c) (1) do not apply to orders received prior to July 27, 1943.

(2) The provisions of paragraph (c) (1) shall not apply to (i) any order of \$200 or less for resistance welding equipment; (ii) any order for resistance welding electrodes; (iii) any order for resistance welding equipment for direct

use by the Army, Navy, Maritime Commission or War Shipping Administration or for incorporation in or attachment to any resistance welding equipment to be used directly by such agencies; (iv) any order bearing a preference rating assigned under Preference Rating Order P-19-h; *Provided That*, notwithstanding paragraph (g) (4) of Priorities Regulation 3, the certificate applying or extending such rating shall state the source of the rating; or (v) any order placed by a manufacturer of, or dealer in, resistance welding equipment.

(d) *Registration of idle equipment.*

(1) Whenever any used resistance welding equipment (other than portable gun welders and resistance welding electrodes) has been idle for a period of ninety (90) consecutive days ending on or after July 12, 1943, without having had its ownership changed, the owner of the equipment shall register it, within thirty (30) days after the ninety (90) day period, by filing Form WPB-2732 with the War Production Board. For the purpose of this subparagraph (d) (1) used resistance welding equipment shall be deemed to be idle for a period of ninety (90) consecutive days unless, during any such period, it has been employed for welding operations for more than one hundred twenty (120) hours in the aggregate.

(2) Within five (5) days after any used resistance welding equipment registered under paragraph (d) (1) has been sold, the seller shall register such change of status by filing with the War Production Board Form WPB-2732 as explained in the instructions which accompany the form.

(e) *Miscellaneous provisions—(1) Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time, except as otherwise expressly provided herein.

(2) *Reporting provisions.* The reporting requirements of paragraphs (b) and (d) and the form of application prescribed in paragraph (c) have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(3) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(4) *Appeals.* Any appeals from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of materials for making luggage for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3253.1 *General Limitation Order L-284—(a) Definitions.* For the purpose of this order:

(1) "Luggage" means a container of the type used for the transportation of personal effects on a journey, and includes (without limitation of the foregoing) the following: animal carriers, army lockers, bellows and extension cases, Boston bags, bottle cases, carryalls, cosmetic cases, duffel, sport and furlough bags, fitted cases, gladstone cases, hat boxes, hat and shoe boxes, jackknife cases, kit bags, over-night or week-end cases, physician's bags, picnic cases, pullman cases, pullman tray cases, salesmen's sample cases, secretary cases, shoe cases, suit cases, travelling bags, vanity cases, victoria cases, women's and men's wardrobe cases, trunks of all types, and all other products that are sold and known as luggage in the trade.

(2) "Base period" means the twelve months ended December 31, 1941.

(3) "Cattle hide leather" means leather or rawhide produced from the hides or skins of bulls, steers, cows and buffaloes, whether native or branded, foreign or domestic, including calf and kipskins.

(4) "Military order" means an order for luggage to be delivered to the Army or Navy of the United States (excluding post exchanges and ship's service stores), United States Maritime Commission, the War Shipping Administration, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Committee for Aeronautics and the Office of Scientific Research and Development.

(5) "Post exchanges" means United States Army post exchanges and United States Marine Corps post exchanges.

(6) "Ship's service stores" means the stores maintained by the United States Navy Ship Service Department.

(7) "Factory sales" means the net dollar volume of factory sales, excluding taxes, of luggage, as above defined, including sales (whether or not on rated orders) to post exchanges and ship's

service stores but excluding sales under military orders as above defined.

(8) "Design and construction" of luggage means the make-up of the luggage in every detail, so that any two pieces of luggage of the same design and construction are necessarily identical, except in quality and color of material utilized.

(b) *Restrictions on manufacturing—*
(1) *Limitations on construction.* (i) After June 30, 1943, no person shall produce any luggage except in conformity with the restrictions contained in Schedule I, annexed; and

(ii) After April 30, 1943, no person shall cut or otherwise put into process any material for the manufacture of any animal carriers, bellows and extension cases, bottle cases, cosmetic cases, fitted cases, gladstone cases, hat boxes, hat and

shoe boxes, jackknife cases, kit bags, picnic cases, secretary cases, shoe cases, vanity cases, victoria cases, women's wardrobe cases or wardrobe trunks of any type: *Provided, however,* That no person shall be deemed to be in violation of this paragraph (b) (1) (ii) in cutting material in his inventory on April 30, 1943, if used only in connection with fabricated or semi-fabricated parts in his inventory on said date and if the luggage into which such material is incorporated is completed prior to July 1, 1943.

(2) *Limitation on quantity produced.* No manufacturer shall produce or sell during any calendar semi-annual period, beginning July 1, 1943, a greater net dollar volume of luggage (including luggage sold by him for less than \$1.50) than that shown for his class on the following list:

Class factory sales during the base period	Factory sales permitted during any calendar semi-annual period	Rate of production on annual basis
\$750,000 or more	25% of base period volume	Percent 25
Between \$250,000 and \$750,000	30% of base period volume	30
Between \$25,000 and \$250,000	35% of base period volume	35
Less than \$25,000	40% of base period volume	40

Provided, however, That nothing in this paragraph (b) (2) shall prevent any manufacturer from making factory sales up to \$1,000 per month or from producing luggage within such dollar volume.

And provided further, That the quota of each manufacturer shall be increased by an amount equal to 40% of the net dollar volume of any luggage delivered by him to post exchanges or ship's service stores. Such increase shall be effective during the calendar quarter following the quarter in which delivery was made.

(3) *Application to military and post exchange orders.* The restrictions in this paragraph (b) shall apply to all luggage (including that produced for post exchanges or ship's service stores, whether or not on rated orders) except luggage produced under specific military orders, as above defined.

(c) *Restrictions on sales, deliveries and inventories—*(1) No manufacturer or dealer shall sell or deliver any luggage which he knows or has reason to believe was manufactured in violation of this order.

(2) No manufacturer shall accept delivery of any item of material to be incorporated into luggage if by reason of such delivery such manufacturer's inventories of such item will be in excess of his minimum practicable working requirements, or in any event in excess of his requirements for the next 120 days.

(d) *Applicability of regulations.* This order and all transactions affected thereby are subject to all regulations of the War Production Board, as amended from time to time, except paragraph (d) of Priorities Regulation 17, which shall be inapplicable to luggage.

(e) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate referring to

the particular provisions appealed from and stating fully the grounds of the appeal.

(f) *Communications to the War Production Board.* All reports, applications, forms, or communications required under or referred to in this order, and all communications concerning this order, shall unless otherwise directed be addressed to the War Production Board, Textile, Clothing & Leather Division, Washington 25, D. C., Ref.: L-284.

(g) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or who furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 27th day of July, 1943.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

[MPR 438]

MANUFACTURERS' PRICES FOR CERTAIN FALL AND WINTER OUTERWEAR

A statement of the considerations involved in the issuance of this Maximum Price Regulation No. 438 has been issued simultaneously herewith and filed with the Division of the Federal Register.* In the judgment of the Price Administrator the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942.

§ 1389.603 *Manufacturers' prices for certain fall and winter outerwear.* Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Orders No. 9250 and No. 9328, Maximum Price Regulation No. 438 (Manufacturers' Prices for Certain Fall and Winter Outerwear) which is annexed hereto, is hereby issued.

SECTION 1. Scope of this regulation—

(a) *Kinds of garments covered.* This regulation applies to the fall and winter outerwear listed in Appendix A. These garments are broken down into groups and each group is given a "group number."

The garments covered by this regulation will be referred to hereafter as "winter garments."

(b) *Kinds of sales covered.* This regulation applies only to manufacturers' sales. A manufacturer's sale is a sale of a garment by a person: (1) who fabricated the garment; (2) who sold or consigned any of the principal materials from which the garment was fabricated; or (3) whose business is under the same ownership and control as the person who fabricated the garment. However, the regulation does not cover sales by a department which sells principally to individual consumers. "Department" means a division, selling establishment or affiliate which employs separate facilities and has customarily kept accounts separate from other parts of the business.

Example 1. S Company, a fabricator of winter garments, owns a retail outlet which keeps its accounts separate from those of the factory.

Sales by the retail outlet are not "manufacturers' sales," and thus are not covered by this regulation.

Example 2. Y, a chain store organization which sells at retail, owns a winter garment factory. Accounts for the stores are kept separately from those for the factory.

Retail sales by Y's stores are not "manufacturers' sales," and thus are not covered by this regulation.

Example 3. Z, a mail order house which sells at retail, consigned to P, an independent contractor, materials from which certain winter garments were fabricated by P and sold back to Z. Z's accounts are kept separate from those of P.

Retail sales by Z's stores of the finished garment are not "manufacturers' sales," and thus are not covered by this regulation.

(c) *Kinds of sales not covered.* This regulation excludes sales which are not manufacturers' sales as explained above. In other words, it does not cover sales of the following kinds: (1) sales made by a retailer or wholesaler who is not the manufacturer of the goods sold; (2) sales by a manufacturer, if made through a department which sells principally to individual consumers.

SEC. 2. *How a seller calculates his maximum prices under this regulation.* (a) You are a seller under this regulation if you are a manufacturer of winter garments. In order to find your maximum prices, you must find your general division factor for 1943 (see section 3). If you sold to more than one class of trade in 1942, you must adjust this factor to obtain class division factors (see section 4). Once you have found your division

*Copies may be obtained from the Office of Price Administration.

¹ 7 F.R. 3185, 6936, 7599, 8948; 8 F.R. 134, 2286.

factors, you will not be required to figure them again, for the same factors are used in calculating the maximum prices for all winter garments.

If during 1942 you manufactured winter garments in one or more departments, which used separate manufacturing facilities and customarily kept sales and cost records separate from other parts of the business, each of these departments is considered a separate seller, and you must find a general division factor for each department.

(b) You find the maximum price for each winter garment (per unit or per dozen) by dividing the direct cost of the garment, calculated according to section 5, by the division factor you are required to use. If you sold to only one class of trade in 1942, you must use your general division factor; if you sold to different classes of trade in 1942, you must use your class division factors.

(c) If the price found by making the calculations in (b) is higher than the limit on maximum prices described in section 6, then your maximum price must not exceed this limit.

(d) If you do not have records for the entire 1942 fiscal year, or are otherwise unable to figure your maximum price under this regulation, you should disregard paragraphs (a), (b) and (c) above, and figure your prices under section 7.

Sec. 3. How a seller finds his general division factor. The "general division factor" is a figure which indicates what part of a garment's selling price is represented by direct cost. If you know, for example, that the general division factor for a garment is .80 and you also know that the garment's direct costs are \$40.00 it is not difficult to find the selling price. By merely dividing .80 into \$40.00, you get your selling price, \$50.00. (Notice that your mark-up over selling price in this case is .20. The mark-up over selling price is always the difference between the division factor and 1.00. Consequently, the bigger the division factor, the smaller the mark-up, and vice-versa.)

The form below (Form A) and the instructions give you specific directions how to calculate a general division factor, based upon your own past experience, for all the garments you are pricing. From your 1942 profit and loss statement, you can find your 1942 division factor (and mark-up) for your business as a whole. The division factor for 1943 (and therefore the 1943 mark-up) is the same as the 1942 division factor, except that the 1942 division factor is increased (and thus the 1942 mark-up is reduced) by the amount that the 1942 profit margin exceeds a normal profit margin. The normal profit margin is a percentage on sales which gives you an opportunity to equal your 1941 dollar net profit. However, a "floor" of .025 is put on this percentage so as to protect those whose earnings in 1941 were particularly low, and a "ceiling" of .05 is also put on the percentage to prevent the prices of those with exceptionally high 1941 earnings from piercing the general price level

of March 1942. The figures for the floor and ceiling were reached after a careful study of the 1941 earnings of representative firms in the industry, and of March 1942 price levels.

Two copies of Form A should be filed with your district or state office of the Office of Price Administration on or before August 11, 1943. You must keep an additional copy as a record. On and after August 26, 1943, you must not sell or deliver any garments covered by this regulation at prices which exceed 110% of the direct cost of the garment until you file this form with the district or state office and receive acknowledgment of its filing ("direct cost" is explained in section 5).

If you have filed Form A and then find that it was incorrect, you may file two signed copies of an amended form setting forth the inaccuracies in the original form and the reasons therefor. Until you have received an acknowledgment from the Office of Price Administration of the receipt of this amended form, however, you must use as your division factor either the factor authorized by section 3, properly applied, or that listed in the original form, whichever affords the lower mark-up.

Instructions for Form A

(Each instruction goes with the item in the form which has the same number as the instruction.)

Instruction Number

1. From the profit and loss statement for the fiscal year 1942 and such other records as may be required, find your total dollar net sales (gross sales minus returns, allowances, discounts). 1942 fiscal year means the period which you used for Federal income tax purposes in 1942.

If, in addition to your manufacturing establishment, you had a separate department which sold principally to individual consumers, the sales figure for garments transferred to this unit is the value at which they were transferred rather than the amount for which they were resold.

2. From the profit and loss statement used for instruction (1) and such other records as may be required, find the total direct cost incurred in manufacturing during the period covered by the profit and loss statement. "Direct cost" means the cost of materials, trimmings and direct labor. Direct labor includes only those operations described in section 5 (a).

4. From the profit and loss statement used for Federal income tax purposes in 1942, find the dollar net profit before Federal income taxes on total sales.

6. From the profit and loss statement used for Federal income tax purposes in 1941, find the dollar net profit before Federal income taxes on total sales. If you were not in business during an entire 1941 fiscal year, skip directly to item 8 and enter .025.

Sec. 4. How to find and to use class division factors—(a) How to adjust the general division factor to obtain class division factors. If you sold winter garments at different prices to different classes of trade in 1942, the general division factor which you calculated under section 3 must be adjusted to obtain "class division factors" ("class of trade" is defined in Instructions 2-3 which supplement the form below). If this adjustment were not made and the general division factor were used for all sales, you would have the same maximum price to all your customers. In order to have price differentials between buyers, as you have had in the past, you must use different division factors.

The form below (Form B) and the instructions give you specific directions for calculating class division factors. These division factors, when applied to the direct costs for each garment, will assure you maximum prices for that garment which differ by approximately the same percent as did your prices to different classes of buyers in 1942. Moreover, by using each class division

factor for the same proportion of your 1943 sales as you did in 1942, you will realize the same mark-up over direct cost on your business as a whole as if you had used only the general division factor.

The method by which the general division factor is adjusted to obtain class division factors was carefully designed to give great weight to the experience of each individual firm on the basis of its available records. After grouping your customers into two classes, you find, from your 1942 sales records, the percent of sales made to each class. Then you take those garments which were sold to both classes in 1942 and find the percent by which the 1942 price of these numbers to Class II purchasers exceeded the 1942 price to Class I purchasers. If those numbers were only part of your entire 1942 volume, you will take 10% as the differential on the rest of your sales, and find a general average. The final step in figuring class division factors merely involves using this general average, the sales percentage figures, and the general division factor in the calculations indicated by lines 21 to 24 of Form B.

Two copies of Form B should be filed with your district or state office of the Office of Price Administration on or before August 11, 1943. Keep an additional copy for your own use. On and after August 26, 1943, until you file this form with the district or state office and receive acknowledgment of its filing, you must not sell or deliver any garments covered by this regulation at prices which exceed 110% of the direct cost of the garment ("direct cost" is explained in Sec. 5).

If you have filed Form B and then find that it was incorrect, you may file two signed copies of an amended form setting forth the inaccuracies in the original form and the reasons therefor. Until you have received an acknowledgment from the Office of Price Administration of the receipt of this amended form, however, you must use as your class division factor either those authorized by section 4, properly applied, or those listed in the original form, whichever would result in the lower prices.

Instructions for Form B

(Each instruction goes with the item in the form which has the same number or letter as the instruction.)

Instruction Number

1. 1942 refers to the same period as used in section 3. But notice that here you use only your sales of winter garments, not your total sales.
- 2-3. You must group your 1942 customers into two classes. Those who customarily bought at or below the price to wholesalers will be called Class I purchasers, and all other customers will be called Class II purchasers. A wholesaler is one who buys a commodity and resells it, without substantially changing its form, to any person other than an ultimate consumer. Each class constitutes a class of trade.
- 6-15. List the ten best selling garments which were sold to both classes in 1942. You may list more than ten if you desire, in which case you may list more than one number on a line. If ten numbers were not sold to both classes in 1942, list all of the numbers which were so sold.
- b-c The prices to Class II and Class I purchasers to be listed are the maximum prices established under section 3.5 of Revised Supplementary Regulation No. 14 (formerly § 1493.73 (a) (37) under Amendment 49 to Supplementary Regulation No. 14 to the General Maximum Price Regulation) less all discounts available to the purchaser.
- e. 1942 refers to the same period as used in line 1. The sales figures to be listed are the total net sales of the number to both classes.

(b) *Restriction on use of the class division factors.* The maximum price for each garment found by using the Class I division factor is called the Class I ceiling, and any sale made at or below this price is considered a sale at a Class I price. Similarly, the maximum price for each garment found by using the Class II division factor is called the Class II ceiling, and any sale made at or below this price (but higher than the Class I ceiling) is considered a sale at a Class II price.

Any buyer may be sold at either Class I or Class II prices. But the proportion of garments delivered at Class II prices after the effective date of this regulation must not exceed the percent of sales made to Class II purchasers in 1942. If, at the end of year 1943 fiscal year, the proportion of garments delivered after the effective date of the regulation at Class II prices is greater than this figure, you have sold goods at higher than your ceiling price to the extent of the excess, and will be liable to civil and criminal penalties accordingly.

The foregoing provision permits you to make the same proportion of sales to large volume buyers and to small volume buyers in 1943 as you did in 1942, at approximately the same differential in price as prevailed between these buyers in 1942. However, your 1943 proportion of sales to each type of buyer is not frozen at the 1942 proportion. You may make a greater proportion of sales to large volume buyers in 1943 than you did in 1942, and vice versa. But any excess

sales to small volume buyers who normally would be charged more than large volume buyers must be made at Class I rather than at Class II prices.

For convenience in complying with this requirement, it is suggested that you keep a current record of deliveries at Class I and Class II prices made after the effective date of the regulation, in this form:

Date	Dollar volume of deliveries at class II prices	Dollar volume of deliveries at class I prices	All deliveries
-----	-----	-----	-----
-----	-----	-----	-----
-----	-----	-----	-----
-----	-----	-----	-----

At the end of each month, you should total deliveries at Class II prices, and all deliveries. You should then divide the former total by the latter. If the proportion of deliveries at Class II prices exceeds the proportion of 1942 sales to Class II purchasers, your Class I ceilings should become your ceilings for all deliveries until the 1943 proportion of deliveries at Class II prices equals the 1942 per cent of sales to Class II purchasers. At the end of the next month the same rule should apply, and so on, until the end of the fiscal year. The 1942 percent of sales to Class II purchasers has already been found in Section 4 (a), line 5.

SEC. 5. How a seller calculates the direct costs of the garment being priced—

(a) **What "direct cost" includes.** The direct cost of each winter garment shall be the total of material, trimming and direct labor costs. Costs incurred in producing features which are prohibited by the War Production Board or any other agency of the United States government at the time the garment is fabricated must not be included in calculating its direct cost.

"Direct labor" means all labor operations performed in processing or assembling the garment or the materials which become parts of it. Examples of such operations are: "cutting", including piling, marking, and separating, but not pattern making or pattern grading; "sewing" and other operations performing the same purpose, such as stapling and riveting; "pressing"; "factory examining of garments"; and "put up", including folding and packaging for storage, but not crating or wrapping for shipment.

The following are not direct labor: make-up and overtime; indirect labor, such as foremen, floormen, supervisory examination of garments, repairing and maintenance personnel, designers, sample room employees, porters, watchmen, piece goods clerks, buyers, receiving room employees, clerical employees, shipping room employees; overhead cost, such as unemployment insurance, social security, pension contribution, contributions to welfare funds, health or accident insurance, workmen's compensation, and any present or future tax upon or measured by wages; and overhead and profit allowance of contractors, if used. A seller who uses a contractor must request the

contractor to furnish all data he needs to figure the actual direct labor cost of the garment, and the contractor must furnish the data so requested.

(b) **Estimated direct costs.** For taking future orders at fixed prices before garments are completed, you may figure your maximum prices on the basis of estimated direct cost. You must keep a record of the estimated direct cost of each garment and enter in it the calculations used in making the estimate. The suggested cost record forms in Appendix B may be used to record this estimate. Before a garment is delivered under any order, you must determine its actual direct cost, and if this cost is below the estimated direct cost, as entered on your cost record, by more than 3%, the maximum price must be re-figured on the basis of the actual direct cost.

If orders are taken at prices which may be adjusted upward on the basis of actual costs, the maximum price must be figured on the basis of actual direct costs, without the 3% tolerance.

The paragraphs below contain instructions for calculating the actual direct costs of a garment.

(c) **How to find actual material costs.** You must calculate the actual material cost of a garment in the following manner:

Step 1. Find the number of feet or yards of material used in the cutting which produced the garment being priced. Consider as a cutting a group of garments of the same style that are put into production as one lot. Garments may be in the same cutting even though the size of the lot requires the fabric to be physically cut in two or more lays.

Step 2. From invoices, find the actual cost of the material used in the cutting.

(1) Actual cost is the amount paid for material. In calculating this amount you must use the same accounting methods as you used in calculating your 1942 direct costs for line 2 of Form A (in Section 3). For example, if in calculating this percent you figured materials cost on a gross basis, you must continue to do so in calculating current material cost; but if you deducted discounts before, you must deduct discounts now. If, however, you figure your cost on a gross basis and the amount of your discount has been increased, you must adjust your gross invoice price to bring your current discount into line with your past discounts. Similarly, incoming transportation may be added to material cost if it was considered part of material cost in making your calculations for line 2 of Form A.

(2) If the actual price paid for material is higher than the price which the regulations of the Office of Price Administration permit your source of supply to charge, at the time of cutting, you use the legal maximum price rather than the actual cost.

(3) Any amount charged or expense established by means of or resulting from a fictitious sale, fictitious billing or fictitious valuation of materials shall not be included in the cost.

Step 3. Find the actual material cost of a garment by dividing the total cost of the materials used in the cutting (found in Step 2) by the number of garments cut in that cutting.

(d) **How to find actual trimming cost.** The instructions for calculating actual material costs shall apply also to the calculation of trimming costs. No trim-

ming that does not become a component part of the garment shall be included as part of trimming cost.

NOTE: At the end of each cutting a record, similar to Form D in Appendix B, must be made of the material and trimming costs of the garment cut.

(e) **How to find actual direct labor cost—(1) Piece-work operations.** For operations compensated on a piece-work basis, cost must be figured on the basis of piece-work rates in effect on September 15, 1942.

(2) **Time operations.** For operations on a time basis, costs are figured in the manner indicated below. Whenever wage rates used in the calculation have been increased over those in effect on September 15, 1942, downward adjustments must be made so that cost figures reflect wage rates in effect on that date.

You will note that the instructions below require a comparison between your pay roll for each time operation during a specified period and the number of garments on which that operation was completed during that period. If your records require you may group all your garments together. If possible, however, you must segregate your garments by "group", by style, or otherwise.

For example, if your records show how much of your cutters' pay roll goes into mackinaws, you can segregate mackinaws from your other garments. If your records show how much of your cutters' pay roll goes into mackinaws in the \$20-\$30 range, you can segregate them from your other mackinaws. If your records show how much of your cutters' pay roll goes into plaids, you can segregate plaids from solids.

(i) **Existing models.** For garments which were completed before July 1, 1943, or which are identical with garments completed before July 1, 1943, you find the cost of each time operation by dividing your pay roll for the operation during the period from January 1 to July 1, 1943, by the number of garments on which that operation was completed during that period.

(ii) **New models.** For all other garments you have a choice of two rules. Select the one which will work better for your business and then use it for all garments.

Rule 1: Use as the cost of each time operation the cost of that time operation found under subdivision (i), above. If you segregated your subdivision (i) costs by group number, or price line, or style, use the most comparable basis for your new model.

For example, if under subdivision (i) you segregated your mackinaws from your jackets, you use for your new mackinaws the mackinaw cost which you found under subdivision (i).

Rule 2: Find the cost of each time operation on each new model by dividing (a) your pay roll for the operation during the period in which the operation on the model was being performed by (b) the total number of garments on which the operation was completed during that period.

For example: A mackinaw manufacturer's cutters worked on one new model for three weeks. During that three-week period they cut 1000 garments, including that model. His cutting cost is calculated by dividing his cutters' pay roll for three weeks by 1000.

SEC. 7. How a seller who is unable to calculate his maximum prices under this regulation prices his garments—(a) Sellers who are not transferees. If you do not have records for the entire 1942 fiscal year (and are not the transferee of a business, as provided in paragraph (b)), or are otherwise unable to calculate your maximum prices under this regulation, you must not sell or deliver winter garments at prices which exceed 110% of the direct cost of the garment until you have applied to the Office of Price Administration for authorization to establish maximum prices. After applying for such authorization, you may take orders at prices in excess of 110% of the direct cost of the garment, provided you stipulate that these prices are subject to downward adjustment if they

exceed the authorized maximum prices, and you do not bill for or collect in excess of 110% of the direct cost of the garment until after authorization is obtained. Three copies of an application for authorization to establish maximum prices must be filed with the Textiles, Leather and Apparel Price Division of the Office of Price Administration in Washington, D. C., setting forth the following:

- (1) Applicant's name and address.
- (2) Address of plant or plants where the seller intends to operate the new business.
- (3) Date of commencement of business.
- (4) Names of officers and three principal owners of the new business.
- (5) The previous business connections of the officers and the three principal owners of the new business.
- (6) A description of the kinds of winter garments desired to be sold, indicating the type of garment in accordance with the garment groups listed in the regulation.
- (7) A list of the names and addresses of three or more manufacturers whose methods of operation in the applicant's opinion are most nearly like the methods of operation which the applicant intends to follow.
- (8) Information with regard to the following:
 - (i) The type of trade to which the applicant expects the garment he manufactures to be distributed.
 - (ii) Proposed method of distribution—e. g., showroom sales, traveling sales and advertising, etc.
 - (iii) Proposed methods of manufacturing—e. g., own plant, contractor's shop, combination of both, etc.

(b) *Transfers and combinations.*—(1) If the business, assets, or stock-in-trade of any business was sold or otherwise transferred to you after the close of the 1942 fiscal year of the business, and you carry on the business, or continue to deal in the same type of commodities or services, in an establishment separate from any other establishment previously owned or operated by you, your maximum prices shall be the same as those to which your transferor would have been subject if no transfer had taken place, except as provided in paragraph (3) of this section, and the obligation to keep records sufficient to verify such prices shall be the same. The transferor must either preserve and make available, or turn over to you, all records of transactions prior to the transfer which are necessary to enable you to comply with the record provisions of this regulation.

(2) If the transfer occurred before the close of the 1942 fiscal year of the business, and after the beginning of the 1941 fiscal year, you must consolidate the records before and after the transfer, and calculate your maximum prices as directed by paragraphs (a), (b) and (c) of section 2.

(3) If two or more manufacturers who were in the winter garment business during the 1942 fiscal year merge or consolidate, or have merged or consolidated after the beginning of the 1941 fiscal year

and continue to operate as one, they must combine their records before and after the union and calculate maximum prices as directed by paragraphs (a), (b) and (c) of section 2.

Sec. 8. *Records and reports.*—(a) *Records.* Every seller must maintain and keep available for the inspection of the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, the following records:

(1) *Cutting ticket.* A separate cutting ticket shall be prepared for each cutting of materials, which shall contain the following information: (i) the date of cutting, (ii) the manufacturer's style number of the garment, (iii) the number of garments cut, (iv) the scale of sizes cut, (v) the actual yardage used, (vi) the grade of the materials used, and the number of the invoice on which the purchase of these materials is "recorded" and (vii) the cost per yard or per foot of materials used.

(2) *Cost records.* A record must be kept of the estimated direct costs of each garment, and the calculations used to arrive at the estimate must be indicated in this record. Moreover, upon each cutting of a style of garment, a record must be prepared of the actual material and trimming cost of that garment, and a record must also be kept of the actual direct labor cost incurred in producing the garment. These records must contain at least the information indicated by the suggested forms in Appendix B.

(3) *Purchase record and invoices.* A record must be kept of all purchases of materials and trimmings, and the original invoices received from vendors or suppliers must be preserved.

(4) *Division factor forms.* A copy must be kept of the division factor forms, Forms A and B, which sections 3 and 4 require the seller to fill out. Moreover, the profit and loss statements and other records, from which the sales, costs, and profits figures used in calculating the division factors were obtained, must be preserved. Also a list must be kept of those purchasers who were considered Class I and Class II, in figuring class division factors under section 4.

(5) *Records of highest price lines.* Records of the highest price line for each garment group must be kept, as required by section 6. If you use separate class division factors, you also must preserve a copy of Form C.

(b) *Reports.* Every seller must file with the Office of Price Administration the division factor forms required by sections 3 and 4, and such other reports as the Office of Price Administration may from time to time require.

Sec. 9. *Invoices, sales slips, and receipts.* Every seller must, in connection with every sale of garments, deliver an invoice showing: (a) the date, (b) the name and address of the seller and purchaser, (c) the lot number of each of the different types of garments sold, (d) the quantities of each different style of garment sold, (e) the price contracted for or charged by the seller for each different type of garment sold, and (f) all discounts. Each type sold must

be separately itemized. The seller must keep a copy of this invoice.

Sec. 10. *Prohibitions and enforcement.*—(a) *Acts forbidden.* On and after the effective date of this regulation, the following acts are forbidden.

(1) *Charging more than the maximum price.* Every person is forbidden to sell or deliver any garment at a higher price than the maximum price fixed by this regulation. But no one is prohibited from charging a price below the maximum price.

(2) *Buying or receiving for more than the maximum price.* Every person is forbidden to buy or receive any garment in the course of trade or business for a higher price than the maximum price fixed by this regulation. But no person is prohibited from buying or receiving for a lower price.

(3) *Combination sales.* Every person is forbidden in the course of trade or business to make a sale of any garment which is conditioned directly or indirectly on the purchase of any other commodity or service.

(4) *Attempted violations.* Every person is forbidden to offer, solicit or attempt to do any of the acts forbidden by subparagraphs (1), (2) and (3).

(b) *Prior contracts.* The acts enumerated in paragraph (a) are forbidden regardless of any contract or other obligation. However, a contract made prior to July 26, 1943, at a fixed price (not subject to upward adjustment) which is no more than 3% over the maximum price permitted by this regulation, may be carried out at the contract price.

(c) *Discounts.* A price higher than the maximum may be stated on the invoice in order to allow for customary discounts and terms of payment, provided that the net price on the seller's customary terms is not in excess of the maximum price. However, a price above the maximum must not be stated in any case where the discount or time for payment is other than the seller has customarily offered to purchasers of the same class.

(d) *Enforcement.* Any person who does any act, or fails to do any act, in violation of this regulation is subject to the criminal penalties, civil enforcement suits, suits for treble damages and proceedings for the suspension of license provided by the Emergency Price Control Act of 1942, as amended.

Sec. 11. *Adjustable pricing.* You may sell winter garments at the maximum price permitted by this regulation, subject to an agreement with the buyer to charge a higher price if it becomes permissible at the date of delivery. Moreover, where (a) a request for a change in the applicable price is pending, (b) authorization is necessary to promote distribution or production, and (c) it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended, the Price Administrator may, upon application, grant you permission to adjust prices upon deliveries made during the pendency of the request in accordance with its disposition.

Sec. 12. *Licenses.*—(a) *Licenses required.* A license, as a condition of selling, is hereby required of every manu-

facturer now or hereafter making a sale of a garment for which a maximum price is established by this regulation. A person whose license is suspended in proceedings under section 205 (b) (2) of the Emergency Price Control Act of 1942 shall not, during the period of suspension, sell any garment as to which his license to sell is suspended.

(b) *License granted.* Every person now or hereafter making a sale of any garment for which a maximum price is established by this regulation or by any amendment hereto is hereby granted a license as a condition of selling such garment. The provisions of this regulation shall be deemed to be incorporated in the license hereby granted, and any violation of any provision so incorporated shall be a violation of the provisions of said license. Such license shall be effective on the effective date of this regulation, and shall unless suspended in accordance with the provisions of the Emergency Price Control Act of 1942, as amended, continue in force as long as such regulation or any amendment or supplement hereto remains in effect.

SEC. 13. *Relation to other maximum price regulations, and geographical applicability.*—(a) *Regulations superseded.* For manufacturers' sales of winter garments, this regulation supersedes the provisions of the General Maximum Price Regulation,¹ including section 3.5 of Revised Supplementary Regulation No. 14 (formerly § 1499.73 (a) (37)² under Amendment 49 to Supplementary Regulation No. 14 to the General Maximum Price Regulation). However, § 1499.7 (Federal and State taxes) of the General Maximum Price Regulation, as well as the amendments thereto, shall continue to be applicable to every person selling garments covered by this regulation.

(b) *War procurement agencies.* This regulation does not apply to sales of winter garments made according to military specifications, and sold to any war procurement agency of the United States, such sales being governed by Maximum Price Regulation 157,³ "Sales and Fabrication of Textiles, Apparel and Related Articles for Military Purposes."

(c) *Contractors' services.* Contractors' charges for the fabrication of winter garments are not governed by this regulation, but by Maximum Price Regulation 172,⁴ "Charges by Contractors in Apparel Industry." The term "contractor" is defined in § 1389.52 (d) of that regulation.

(d) *Tailored garments.* This regulation does not cover "men's and boys' tailored clothing," which is defined in and governed by Maximum Price Regulation

177,⁵ "Men's and Boys' Tailored Clothing."

(e) *Export sales.* This regulation does not apply to export sales of winter garments. The Second Revised Maximum Export Price Regulation⁶ applies to such sales.

(f) *Import sales.* The provisions of this regulation do not apply to deliveries which originate outside the 48 states and the District of Columbia. Such sales and deliveries are governed by the provisions of the General Maximum Price Regulation, and especially Revised Supplementary Regulation No. 12.⁷ This regulation does, however, apply to domestic sales whether or not the articles sold were originally imported.

(g) *Geographical applicability of this regulation.* This regulation applies to the 48 states and the District of Columbia.

SEC. 14. *How this regulation may be amended.* Any person seeking a modification of any provision of this regulation may file a petition for amendment of general applicability. Any such petition must be filed in accordance with the provisions of Revised Procedural Regulation No. 1⁸ issued by the Office of Price Administration.

[RO 13,¹ Amdt. 48]

PROCESSED FOODS

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Section 9.2 (b), (c), (d) and (e) to Ration Order 13 are added to read as follows:

(b) An industrial user who has an excess inventory of processed foods may apply for permission to sell or transfer any part of that excess. The application shall be made on OPA Form R-315 to the Board with which he is registered. He must state in his application the kinds, quantities and point value of the processed foods he wishes to sell or transfer, the reason he wishes to sell or transfer them, the way in which they are to be sold or transferred, and any other information that the Board requests. The Board shall grant the application if good cause is shown. If the application is granted, the processed foods must be sold or transferred for points in the same way that a retailer is permitted to sell or transfer processed foods, and within five days after the sale or transfer, the transferor must give up to the Board all points which he received for the processed foods sold or transferred. The Board shall reduce his excess inventory by an amount equal to the number of points given up.

(c) Institutional users may sell or transfer processed foods only as permitted in General Ration Order 5.

(d) Any person not covered by paragraphs (a) (b) or (c) may apply for permission to sell or transfer processed foods. The application shall be made on OPA Form R-315 to the Board for the place where he lives or where he has his principal business office. He must state in his application the kinds, quantities and point value of the processed foods he wishes to sell or transfer, the reason he wishes to sell or transfer them, the way in which they are to be sold or transferred, and any other information that the Board requests. Only one such application may be made by a person on his own behalf or on behalf of the members of his family unit. The Board shall grant the application if good cause is shown. If the application is granted, the processed foods must be sold or transferred for points in the same way that a retailer is permitted to sell or transfer processed foods, and within five days after the sale or transfer, the trans-

feror must give up to the Board all points which he received for the processed foods sold or transferred.

(e) If the person making the sale or transfer, as permitted in paragraph (d), is a consumer who has been charged with an excess number of cans of processed foods (as shown by a notation on the inside front cover of his War Ration Book Two, or by the removal from his War Ration Book Two of eight point blue stamps which have not yet become valid), the number of cans with which he is charged shall be reduced by one for each can or bottle of processed foods of eight ounces or over which he has transferred and for which he turns over points. If the number of cans by which that reduction is to be made does not exceed the notation on the inside front cover of the consumer's book, the Board shall reduce the number noted on the book by the appropriate amount. Otherwise, the Board shall issue a substitute book exactly corresponding to that surrendered by the consumer, except that no number shall be written on the inside front cover of the substitute book and an appropriate reduction shall be made in the number of eight point blue stamps not yet valid, which are to be removed. If the processed foods sold or transferred were charged against several members of a family unit the Board shall divide the reduction as equally as possible among the books of members of the family unit which have been charged with an excess number of cans of processed foods.

This amendment shall become effective July 31, 1943.

FLUID MILK IN MINOT, NORTH DAKOTA

Order No. G-1 under Supplementary Regulation No. 14 to the General Maximum Price Regulation. Adjustment of fluid milk prices in Minot, North Dakota. (Formerly Order No. 1).

The Regional Administrator has determined on his own motion after investigation that the price paid to producers of butter fat in the milk shed serving Minot, North Dakota by manufacturers of butter, cheese, condensed and evaporated milk, and milk powder has increased from an average of 36¢ per lb. in March 1942 to 48¢ per lb. on October 2, 1942; that distributors of fluid milk in the City of Minot, North Dakota, a city with a population of less than 100,000, are now paying or will shortly have to pay producers of such milk in excess of 41¢ more per cwt. than they did in March 1942; and that distributors, notwithstanding any savings which can be effected in distribution costs, cannot fairly be expected to distribute fluid milk in Minot at the maximum prices established by § 1499.2 of the General Maximum Price Regulation.

less the following requirements have been met:

(a) With respect to a distributor who buys directly from a producer, until and unless he shall have purchased or contracted to purchase fluid milk from a producer at a price of 41¢ or more per cwt. in excess of the highest price paid in March 1942, and shall have reported such fact to the North Dakota State Office of the Office of Price Administration or a duly authorized representative thereof

(b) With respect to a seller at retail purchasing milk from a distributor at wholesale until and unless he shall have purchased or contracted to purchase milk at a price increase. In no event shall the maximum price of such a seller at retail be increased by more than the highest increase in cost to himself.

4. The foregoing order shall apply to all sales and deliveries of fluid milk including chocolate milk and Bulgarian buttermilk at wholesale and retail within the city limits of Minot and within a distance of three miles from the city limits thereof.

FLUID MILK IN RAPID CITY, SOUTH DAKOTA

Order No. G-2 under Supplementary Regulation No. 14 to the General Maximum Price Regulation. Adjustment of fluid milk prices in Rapid City, South Dakota. (Formerly Order No. 2)

The Regional Administrator has determined on his own motion after investigation that (1) the price paid to producers by manufacturers of butter, cheese, condensed and evaporated milk, or milk powder for milk produced within the milk shed on which Rapid City, South Dakota depends for its supply of fluid milk has increased 41¢ or more per cwt. since March 1942; (2) distributors of fluid milk in said locality of Rapid City, South Dakota, which is a city of less than 100,000, in order to obtain the supply of milk for fluid use necessary to satisfy the normal requirements of the locality, are paying producers of such milk at least 41¢ more per cwt. than they paid in March 1942, and (3) notwithstanding the savings that have been effected or which may be effected as the result of the adoption of all practicable measures designed to reduce distribution costs, such distributors cannot fairly be expected to continue to distribute fluid milk in the locality herein-after designated at the maximum prices established for them under § 1499.2 of the General Maximum Price Regulation.

ADJUSTMENT OF FLUID MILK PRICES IN ROWAN, IOWA

Order No. G-3 under Supplementary Regulation No. 14 to the General Maximum Price Regulation. Adjustment of fluid milk prices in Rowan, Iowa. (Formerly Order No. 3.)

The Regional Administrator has determined on his own motion after investigation that (1) the use of March 1942 as the base period for the establishment of maximum prices for fluid milk in Rowan, Iowa, a city of less than 100,000 population, has established an abnormal differential between the prices charged for fluid milk in Rowan and adjoining cities of approximately the same population;

(2) that this abnormal differential has caused a diversion of a material portion of the normal milk supply of Rowan, Iowa, from Rowan to other adjoining cities, and that a further diversion is threatened; and (3) as the result of such diversion and threatened diversion, a shortage of fluid milk in Rowan exists and a further shortage is imminent.

Accordingly, for the reasons more fully set forth in the accompanying opinion, and pursuant to the Emergency Price Control Act of 1942 and § 1499.73 (a) (1) (iv) of Supplementary Regulation No. 14 to the General Maximum Price Regulation, *It is ordered:*

1. Subject to the limitations in paragraph 2 hereof, the maximum prices established for sellers of milk at wholesale and retail by § 1499.2 of the General Maximum Price Regulation are hereby increased as follows:

	Gallon	Quart	Pint	½ pint
Wholesale (cents)-----	4.0	1.0	0.5	0.25
Retail (cents)-----	4.0	1.0	.5	None

2. Where the adjusted maximum price is a unit figure containing a fraction of a cent, the seller at wholesale must multiply such fractional per unit figure by the number of units in each sale. The seller at retail, however, will adjust unit figures containing a fraction of a cent to the next highest half cent; for example, a maximum price of 12½ cents for one unit would be adjusted to 13 cents for one unit, 25 cents for two units, etc.

3. Every person selling milk in bottles or paper containers to a seller at retail shall furnish to each such purchaser a statement substantially in the following form:

The prices for milk have been increased in the amount indicated below by order issued by the Office of Price Administration. You are permitted to increase your prices by the same amount.

Gallon-----
Quart-----
Pint-----

4. For the purposes of this order, the sale of milk at retail shall mean any sale of fluid milk to an ultimate consumer of such milk other than an industrial or commercial user.

5. A sale at wholesale shall refer to any sale of fluid milk or cream in bottles or paper containers, whether by a producer, pasteurizer or other person, to any person, including a commercial and industrial user, other than an ultimate consumer.

6. This order shall be effective from the date hereof. It is subject to revocation or amendment by the Regional Administrator at any time hereafter upon a finding that the prevailing prices for fluid milk in cities adjoining Rowan shall have decrease, or for other reasons. This order is further subject to revocation by any Price Regulation issued hereafter, or by any supplement or amendment hereafter issued as to any

Price Regulation the provisions of which may be contrary hereto.

7. This order shall apply to all sales and deliveries of fluid milk at wholesale and retail within the city of Rowan, Iowa, and within a distance of one mile from the City Limits thereof.

8. Milk shall mean cow's milk produced, processed, distributed and sold for consumption in fluid form as whole milk.

Order No. G-4 under Supplementary Regulation No. 14 to the General Maximum Price Regulation. Adjustment of fluid milk prices in Conrad, Iowa. (Formerly Order No. 4).

The Regional Administrator has determined on his own motion, after investigation, that the price paid to milk producers in Conrad, Iowa, by manufacturers of butter, cheese, condensed and evaporated milk, and milk powder has increased more than 41 cents per cwt. since March 1942; that distributors of fluid milk in the city of Conrad, Iowa, a city with a population of less than 100,000, are now paying or will shortly have to pay producers of such milk in excess of 41 cents more per cwt. than they did in March 1942; and that distributors, notwithstanding any savings which can be effected in distribution costs, cannot fairly be expected to distribute fluid milk in Conrad at the maximum prices established by § 1499.2 of the General Maximum Price Regulation.

1. The maximum prices established for sellers of milk at wholesale and retail by § 1499.2 of the General Maximum Price Regulation are hereby increased as follows:

2. The foregoing order shall apply to all sales and deliveries of fluid milk at wholesale and retail within the city limits of Conrad and within a distance of three miles from the city limits thereof.

3. All sellers of milk who purchase milk directly from the producers thereof shall file, with the Iowa State Office of the Office of Price Administration, a statement on the 10th day of each month, beginning with December 1942, of the

No. 148—8

4. This order shall be effective from the date hereof. [Region VI Order G-6 Under SR 14]

FLUID MILK IN PHELPS, WISCONSIN

Order No. G-6 under Supplementary Regulation No. 14 to the General Maximum Price Regulation. Adjustment of fluid milk prices in Phelps, Wisconsin. (Formerly Order No. 6.)

The Regional Administrator has determined on his own motion after investigation that (1) the use of March 1942 as the base period for the establishment of maximum prices for fluid milk in Phelps, Wisconsin, a city of less than 100,000 population, has established an abnormal differential between the prices charged for fluid milk in Phelps and adjoining cities of approximately the same population; (2) that this abnormal differential threatens to cause a diversion of a material portion of the normal milk supply of Phelps, Wisconsin, from Phelps to other adjoining cities; and, (3) as the result of such diversion and threatened diversion, a shortage of fluid milk in Phelps exists or is imminent.

Accordingly, for the reasons more fully set forth in the accompanying opinion, and pursuant to the Emergency Price Control Act of 1942 and § 1499.73 (a) (1) (vi) of Supplementary Regulation No. 14 to the General Maximum Price Regulation, *It is ordered:*

1. The maximum prices established for sellers of milk at wholesale and retail by § 1499.2 of the General Maximum Price Regulation are hereby increased by 2¢ a quart and 1¢ a pint.

2. Every person selling milk in bottles or paper containers at an increased price to a seller at retail shall furnish to each such purchaser a statement substantially in the following form:

The prices for milk have been increased by 2¢ a quart and 1¢ a pint by permission of the Office of Price Administration. You are permitted to increase your prices by the same amount.

3. For the purpose of this order, the sale of milk at retail shall refer to any sale of fluid milk to an ultimate consumer of such milk other than an industrial or commercial user. A sale at wholesale shall refer to any sale of fluid milk in bottles or paper containers, whether by a producer, pasteurizer or other person, to any person, including a commercial and industrial user, other than an ultimate consumer.

4. Milk shall mean cow's milk produced, processed, distributed and sold

for consumption in fluid form as whole milk.

5. This order shall be effective from the date hereof. It is subject to revocation or amendment by the Regional Administrator at any time hereafter upon a finding that the prevailing prices for fluid milk in cities adjoining Phelps shall have decreased, or for other reasons. This order is further subject to revocation by any Price Regulation issued hereafter, or by any supplement or amendment hereafter issued as to any Price Regulation the provisions of which may be contrary hereto.

6. This order shall apply to all sales and deliveries of fluid milk at wholesale and retail within the city of Phelps, Wisconsin, and within a distance of one mile from the city limits thereof.

FLUID MILK IN EAU CLAIRE AND CHIPPEWA FALLS, WISC.

Amendment No. 1 to Order No. G-5 under Supplementary Regulation No. 14 to the General Maximum Price Regulation. (Formerly Order No. 5.)

It has been reported to the Office of Price Administration that the recording requirement contained in paragraph C of the order heretofore issued is unduly burdensome by reason of the fact that information relating to the cost of milk purchased by distributors is not available in final form by the 10th of each month succeeding the month in which deliveries were made.

It is accordingly ordered, That paragraph 6 of Order No. G-5 issued on October 22, 1942 be, and it is hereby amended, so as to read "on the 20th day of each month" instead of "on the 10th day of each month".
